- **17 member municipalities (from very small about thousand people to Prague 6 with 120 th. inhabitants) – in total more than 170 th. residents**
- **In two regions – Prague and Central Bohemian Region**
- **Contract on cooperation with the Airport since 2010**

Prague Airport Region – PAR

# PAR – our goals

Common approach of municipalities re regarding:

- Environment
- Quality of life of citizens, support of Education in region, sustainable development of region
- Improvement of communication towards citizens and mutual sharing of awareness with the Airport, development of mitigation / compensation system
- Transport availability and development of public transport, especially rail and alternative transport means
- Employment and economic growth

# Contract of cooperation

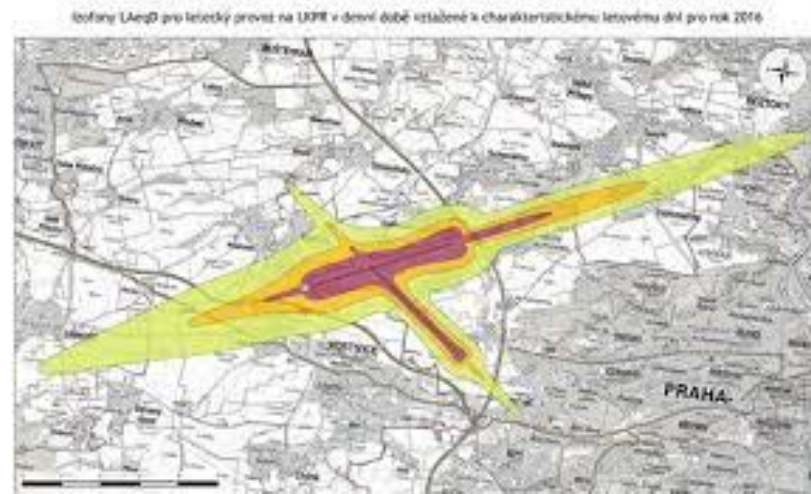

- Declaration of mutual cooperation - to mitigate negative impact of airport operation
- Set up schemes for technical and financial assistance of the airport at implementation regional project as a part of collective compensation
- Environment, public space, social issues, education

# Prague Airport presentation

# PAR Noise policy

- To achieve night flight restrictions to the greatest extent possible and as soon as possible
- Noise is truly negatively perceived – with all the influences to the health and quality of life – not only inside of noise protected zones

To prepare new agreement with Airport

Thank you
